Reliance Outclasses Rival at Every Point of Game and Wins Amid Acclamation

## SHAMROCK IS LOST IN FOG

Misses Line in Returning and Crosses It From Opposite Direction--Defender Files Ensign

New York, Sept. 3.—Reliance today won the third and final race for that famous sea trophy, America's cup. In a dense fog, which prevented the vision beyond 300 yards, she finished the race at 5:30:02 amid acclamations of the assembled fleet. Shamrock III after running for an hour in the fog, missed the finishing line, passed it, and returned to it from the opposite direction. As Reliance was then being towed through the fleet of yachts, her ensign fluttering in celebration of her victory, Shamrock did not cross the finish line.

The successful result was achieved only after four futile attempts to sail off the final race and after the outcome had been admitted even by Sir Thomas Lipton to be a foregone conclusion. Today was the eighth attempt to sail a race. After one fluke Reliance won two following races, one by seven minutes and three seconds, and the other one minute and 1 1/2 seconds. One week ago today the first attempt to sail the third race failed, and attempts have been made every day this week.

Today's victory means the cup is destined to remain in America until England is able to procure a genius equal to Herreshoff in yacht designing.

## FAVORABLE CHANGE IS DUE

Demands in Iron Trade Bring Increase in Business

New York, Sept. 3.—An improving inquiry can be reported for manufactured iron and steel generally, says the Iron Age. The conditions, which have been unsatisfactory during the summer months, but it is now quite confidently expected that a favorable change is due. Autumn requirements are unusually sufficient to bring about a good increase in the volume of business. Seasonable products, such as wire nails and wire fencing, are even now beginning to feel a better demand. In the case of structural shapes, plates and other products, a great deal of deferred business, held up on account of labor troubles and the unsatisfactory condition of the market for securities will soon come up for attention.

Pittsburg prices are pitched on a more cheerful tone than for some months, transactions being on a larger scale and showing more confidence among buyers. The influence of good crops in the west and southwest, which will be marketed price, is beginning to be felt. Reports from other markets are generally of an encouraging character. The east is at present the least favored in this respect.

Prices of finished products are well maintained, with the exception of light sheets, bar iron and some minor products. Transactions in foundry pig iron are not on so large a scale as last week. A great deal of buying is in progress, but it consists of small lots, showing that consumers are conservative in anticipating their requirements and will be until they are convinced that bottom has been reached. Dur-

ing the prevalence of high prices costs were considerably increased, and with the exception of coke, these costs still prevail. Quite a number of furnace owners find that at current prices their margin of profit has disappeared and preparations are under way for the blowing out of a considerable number of stacks.

An interesting contest is possible between the independent sheet mills and the Amalgamated Association. The mills have asked for changes in some of the union rules to enable them to compete on better terms with non-union mills, but their request has been refused.

## COMPANY IS REORGANIZED

F. J. Kearne is Choice of Gould-Rockefeller Interests

New York, Sept. 3.—Frank J. Kearne, formerly president of the National Tube Company has been placed in full control of the Colorado Fuel & Iron Company. Mr. Kearne, who is said to be the joint choice of the Gould-Rockefeller interest in the company, was elected president of the company and chairman of the board of directors at a meeting held in this city. No action upon the dividend on the preferred stock of the company was taken. The preferred stock, of which \$2,000,000 is outstanding bears interest at the rate of eight per cent. This dividend is cumulative. It is payable semi-annually in September and April and the August directors meeting is the one at which the declaration is usually made. None of the details of the plan which is being worked out to provide fresh funds to the amount of \$13,000,000 was taken up at the meeting. It is understood that the plan will be worked out in full detail by the executive committee before being submitted to the directors for their approval.

The executive committee elected consists of F. J. Kearne, John D. Rockefeller, Jr., George J. Gould, F. T. Gates and John C. Osgood.

Officers elected were: F. J. Kearne, chairman of the board and president; J. F. Welborne, vice president; D. C. Beaman, secretary.

Mr. Heare succeeds J. E. Keblor as president. Mr. Welborne succeeds A. C. Case. The offices of second and third vice president are left vacant.

## ELABORATE CAMP PLANNED

Fort Riley Curing Maneuvers to Be Most Spectacular

Junction City, Kan., Sept. 3.—The plans for the big camp at Fort Riley during the maneuvers show that the camp will be one of the most spectacular ever planned. The 14,000 troops that are to participate will be encamped on the Republican river flats just north of Junction City in the shape of a gigantic fan, which will have its apex near the bluffs, a half mile further north of town. At the apex of the camp will be the headquarters of the commanding general and his staff. On the ribs of the fan will be encamped, in regimental formation, the various regiments and battalions of cavalry, infantry, engineers and signal corps, and the batteries of artillery composing the division of maneuver. Streets will divide the camps, and form, when tents are pitched, the ribs of the fan. This form of encampment will enable the commanding general to be at all times within easy communication with all parts of the camp. An extensive line of water pipes will be laid at the camp site before the arrival of the troops.

The space between the headquarters of the commanding general and the camp of the various organizations will

be large enough for a review of all the troops that will be assembled on the reservation for the maneuvers.

## STREET CAR MEN URGE STRIKE

Other Seattle Unions Not in Sympathy With Walk Out

Seattle, Sept. 3.—The meeting of the street car men's union and the advisory board consisting of one representative from each of the 45 other unions did not convene until 1:30 this morning and was still in secret session at 3 o'clock. It is understood that the majority of street car men are urging immediate strike and appealing for support of all unions, but the preponderance of sentiment among other union men prior to the meeting was plainly in favor of delay if not indefinite postponement. There seems little likelihood of a general strike at once. President Purth of the Seattle Electric Company arrived home last night and the question of whether the difference between the company and its employes shall be submitted to arbitration will probably be decided today.

There is no change in the teamster's strike situation. The employers managed to get out a few more drays yesterday, most of them driven by members of the draying firms.

## IMPARTED THROUGH DISTILLED MILK

Chicago, Sept. 3.—The theory that germs of an appetite for liquor are imparted to Chicago babies through the medium of milk from cows that eat the refuse from Peoria distilleries has suggested itself to Assistant State Food Inspector R. M. Patterson. Mr. Patterson has just returned from Peoria, where he found 150 distillery fed cows, whose milk had been regularly shipped to Chicago. He enjoined the dairymen to sell no more milk from these cattle. "I can't say that I saw any of the cattle under the influence of liquor," said Mr. Patterson, "but I know that the corn mash had a peculiar effect on them and it is against the law to sell their milk."

## INJURED IN COLLISION

Sedalia, Mo., Sept. 3.—A Missouri, Kansas & Texas stock train and a freight train met in a head-end collision at McBain, on the St. Louis division as the result of which three persons were injured. The injured: H. A. Waller, stockman, Wichita Falls, Tex., right leg and left ankle badly injured.

J. A. Avis, stockman, Wichita Falls, Tex., left thigh and leg broken.

Edward Turbeyville, fireman, back wrenched and internally injured.

The injured were brought to the company's hospital here. Both trains were wrecked.

## MAKES COMPLETE CONFESSION

Victoria, B. C., Sept. 3.—H. C. Miller, alias Alfred E. Lyford, was arrested here last night on a telegram from Rock Island, Ill., police identifying him as ex-deputy county treasurer of Rock Island county, who absconded July 5, 1902 with \$12,000 county funds. Lyford made a complete confession and will waive extradition.

## CULLON IN SAN FRANCISCO

San Francisco, Sept. 3.—United States Senator Shelby M. Cullom of Illinois, has recently arrived here from Chicago. He has come west to visit his brother, who is recovering from a recent accident and to enjoy a little recreation. The senator is accompanied by Mrs. Cullom and a party of friends.

## BOUNDARY COMMISSION HOLDS ITS FIRST MEETING

Formally Opens in London, Effects Organization and Outlines The Business in Hand--Next Session To Be Held September 15

London, September 3.—The Alaskan boundary commissioners held their first meeting today in the conference room of the foreign office.

Prior to the formal assembling the commissioners met in their private conference room and selected Reginald Tower of the British diplomatic service, formerly attached to the legation at Washington, and recently minister to Siam, to be secretary of the commission. J. R. Carter, second secretary of the United States embassy, and Mr. Pope, a representative of the Canadian government, were appointed assistant secretaries. Lord Chief Justice Alverstone was subsequently chosen chairman of the commission. It was announced that oral arguments would commence September 15, and Lord Alverstone expressed the hope that they would be finished by October 9.

Lord Alverstone, after formally announcing that the commission was in session, stating that he had been selected as president, an honor which he highly appreciated, asked counsel when they desired to begin oral arguments. Sir Robert B. Finlay, attorney-general, in behalf of the British counsel, suggested that at least two weeks should be required for preparation, to which John M. Dickinson, representing the American counsel, assented, though he said the American counsel would be ready in a week. Lord Alverstone asked when the oral arguments would be finished, and Attorney-General Finlay suggested October 15, but his lordship remarked that he thought a shorter period advisable, and October 9 was fixed upon.

The commission decided to sit five days a week, commencing September 15 and excluding Saturdays, and to be in session from 11 a. m. to 4 p. m. daily, and granted permission for a limited number of representatives of the press to attend the sittings.

In order that the presentation of the

cases may be exhaustive, it has been arranged that three of counsel for each government shall make arguments, the British opening, and being followed alternately by American and British, the former securing the advantage of delivering the closing argument.

## SAN FRANCISCO WANTS RACES

San Frisco, Sept. 3.—The California promotion committee has sent the following telegram to the president of the New York Yacht Club inviting the club to select San Francisco harbor as the next course for the defense of the American cup. They assure brisk winds, deep and safe waters on the largest landlocked harbor in the world which can be viewed by spectators upon land. The fact that there is no rain during the summer months is an additional feature. With the contest on the Pacific coast other nations would undoubtedly be led to compete for the America's cup.

A similar telegram was sent to Sir Thomas Lipton.

When asked regarding his opinion as to the merits of San Francisco harbor as a course for the international yacht race, ex-Mayor Phelan, of San Francisco, a close personal friend of Sir Thomas, stated in his opinion such a course could not be surpassed.

## DIES IN HIS CELL

New York, Sept. 3.—Preferring death to facing a serious charge, Andrew A. Gorstline, a Long Island City manufacturer, has committed suicide in his cell in the Queens county jail by inhaling illuminating gas.

In a will found in his cell, Gorstline bequeathed all his property to his nephew, who made the complaint on which Andrew was arrested.
